받침 · Batchim

Batchim é a consoante que aparece embaixo da sílaba, no final: 밥, 물, 한.
Cada sílaba tem 3 posições: consoante + vogal + (consoante final).

Parece haver muitas consoantes finais, mas só existem 7 sons:

ㄱ = k ㄴ = n ㄷ = t ㄹ = l ㅁ = m ㅂ = p ㅇ = ng

Outras consoantes no final se juntam a esses sons:
ㅅ ㅈ ㅊ ㅌ → soam como ㄷ (t) ㅍ → soa como ㅂ (p) ㄲ ㅋ → soam como ㄱ (k)

A consoante final é curta e travada: não se solta o ar depois dela.

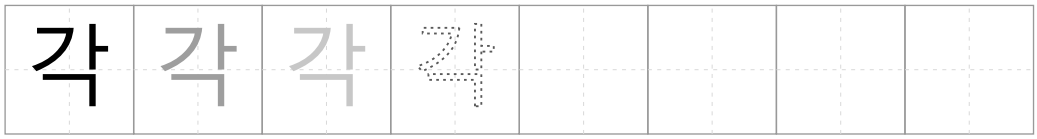

Como usar cada página (8 sílabas, 8 colunas):
modelo preto → cobrir cinza → cobrir cinza claro → pontilhado → 4 quadrados em branco

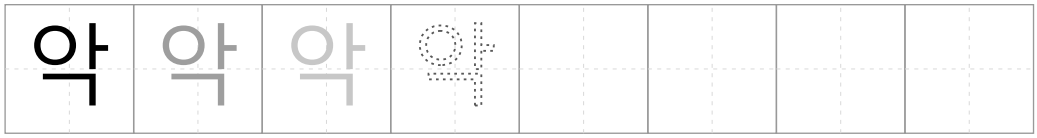

Páginas:
1. ㄱ 2. ㄴ 3. ㄹ 4. ㅁ 5. ㅂ 6. ㅇ 7. outras consoantes

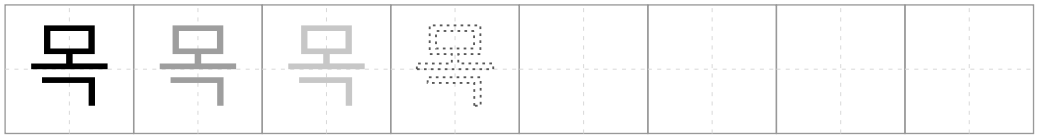

Dica: leia cada sílaba em voz alta antes de escrever.

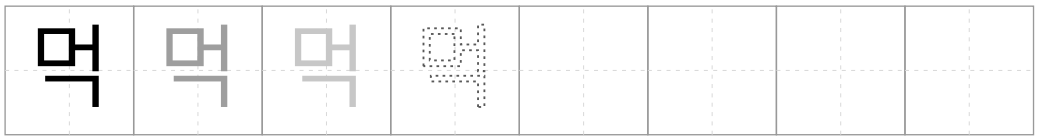

Batchim ㄱ (k)

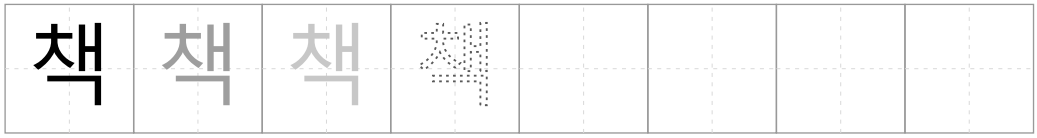

som de k curto e travado, sem soltar o ar (como em 'pacto')
